REACH STATEMENT

(Registration, Evaluation, Authorisation and Restriction of Chemicals)

The Tibbetts Group encompassing the divisions of TGL, BFC and PG source, test, supply, repackage and assemble batch traced engineered components to Automotive, Aerospace and Industrial sectors and are dedicated to product quality and customer satisfaction.

The European Union (EU) REACH directive no.1907/2006, is designed to regulate the Registration, Evaluation, Authorisation and Restriction of Chemical Substances.

The Tibbetts Group review the REACH regulations with our suppliers and to the best of our knowledge and belief none of the articles that we sell intentionally contain any of the 253 Substances of Very High Concern (SVHC's) currently on the candidate list in concentrations of >0.1% by weight.

The list of substances can be found at: https://echa.europa.eu/candidate-list-table

Registration is required for companies that either produce or import into the EU any substance in volumes that exceed one tonne per substance. The Tibbetts Group does not exceed this import amount and will therefore not be required to register.
